Subject: Support for Uber

I am a frequent guest of Uber services in jurisdictions across the United States.

I'm quite puzzled about your actions from yesterday stating that Uber shall stop South Carolina operations. Exactly what is behind this ill-advised action?

Please take the legitimate and proper steps to allow my fellow South Carolinians the opportunity to CHOOSE how they want to travel. For me, I prefer the safety, security, cleanliness, timeliness and COMFORT of an Uber ride.

Have you ever tried the service??? Obviously not, otherwise you would never have taken the action you did.

Give me a call so we can discuss this in more detail.

Subject: UBER RIDER

I am an avid UBER rider. The rides are safe, efficient, and far more reliable for transportation than cabs in the Charleston area. I have nearly died in a cab when the driver was foreign and did not have proper licensing, with a company who would not even answer their phone when I called to complain. They are clean and the ability to pay without getting out cash or credit card and having a receipt for reimbursement is especially helpful. Cabs are the way of the past...UBER is the future.

South Carolina is so backwards. Why would you get rid of a safe way to travel. The cab presence in places like Charleston is appalling. Charleston is also a city where it's most needed as it is a hotbed for drunk drivers due to lack of cabs.

Subject: Please keep Uber active

I live in California and visit my family regularly in SC. Uber in California has done many things positive for our communities:

1. It has taken many drunk drivers off the road, more than a taxi service since it is much easier for a person under the influence to order an Uber over a taxi.
2. It has created more jobs and allowed people to rely less on welfare, boosting the economy
3. It has provide convenient options for comfortable transportation that taxis sometimes do not provide. It is more cost effective and adds convenience.

Please reconsider this ban.

Thank you

Chris
